THE LEADING LIGHT

100% HANDMADE IN ITALY

Slamp has been at the forefront of creating original, eclectic, and contemporary lamps since 1994. Each is handcrafted from unique materials in its atelier located in Rome, Italy, in collaboration with internationally renowned architects and designers. Every lamp is recognizable and original thanks to unique, unbreakable technopolymers, sculpted into three dimensional shapes, decorations and effects that would be impossible using any other material.

Dal 1994, Slamp è leader nella creazione di lampade di design originali, eclettiche e contemporanee, realizzate a mano nell'atelier di Roma (Italia), utilizzando materiali unici e collaborando con i più noti architetti e designer internazionali. Unicità e riconoscibilità di ogni lampada passano attraverso l'uso di tecnopolimeri unici, nobili e infrangibili che permettono di realizzare forme, decori ed effetti altrimenti impossibili con altri materiali.

SLAMP

THE LEADING LIGHT

UNVEIL THE UNIQUE

Every Slamp piece is unique. Unique because the creative process does not stem from a 3D file. The creative process requires a designer to get their hands "dirty" as they cut, sew and sculpt not only the materials, but pay respect to 25 years of grounded studious, research and development. Unique because in an atelier, the ladies who "tailor" light don their white gloves and bring a poetic, original "garment" to life, their pride illuminating those who will inhabit alongside their creations. Unique in their ability to stand out amongst the objects of those who narrate their own identity through interior design: those who leave on the light as the only voice within a silent evening; those who unknowingly, with a simple click, reignite the full-on energy of artistic creation.

Ogni Slamp è unica. Unica perché frutto di un processo creativo che non origina da un file 3d, ma che richiede al progettista la volontà di "sporcarsi le mani", tagliando, cucendo e trattando materiali e valori sedimentati in 25 anni di studio, di ricerca e sviluppo. Unica perché allestita in un atelier dove ogni giorno le sarte della luce, indossati i loro guanti bianchi, sono orgogliose di mettere al mondo un capo che si distingue per poetica e originalità, e per quel moto di orgoglio che saprà accendere negli occhi di chi lo indosserà nella propria vita. Unica perché espressione di chi ama raccontare la propria identità attraverso gli oggetti che lo circondano; di chi lascia che la silenziosa presenza della luce si trasformi nella migliore compagna di una sera; di chi ogni giorno, con un quel semplice click sull'interruttore, riaccende, inconsapevolmente, tutta l'energia della creazione.

WHEN SOMETHING TECHNICAL IS WHOLLY SARTORIAL

When the culture of hand-tailoring meets the continuous innovation of unique materials, the possibilities are limitless. Accordéon is hand folded, formed, and draped like material to clothe the illumination beneath.

Quando la cultura del fatto a mano incontra un'incessante ricerca sui materiali, le possibilità sono infinite. Accordéon è realizzata scaldando il materiale unico di Slamp e drappeggiandolo a mano come fosse un tessuto.

WEIGHTLESS FEMININE ESSENCE, PRIMITIVE DOMESTIC CRAFT

Kalatos is clearly inspired by the art of weaving baskets and cane sacks, a traditional domestic art that has been a part of humankind since prehistoric times.The collection is a high-tech take on this artisan craft, using Slamp's unique technopolymers; there are suspension and floor versions, both with an integrated magnetic system.

Il design di Kalatos è di chiara ispirazione all'arte dell'intreccio, espressione dell'artigianato artistico tradizionale che l'uomo porta con sè da quando, nella preistoria, intrecciava fibre vegetali per dar vita a cesti e canestri. Rivisitata in chiave high-tech, dato l'utilizzo dei tecnopolimeri di Slamp, la collezione si compone di una versione a sospensione e una plafoniera, entrambe con attacco magnetico.

THE LED SOURCE CAN BE EASILY AND QUICKLY CHANGED

The dialogue between technological innovation and stylistic originality speaks loudly; the LED source can be easily and quickly changed thanks to the exclusive magnetic hanging system, and a white texture printed on unique, transparent polymers, are both elements that contribute to its refined, contemporary design.

Dal dialogo tra tecnologia – la sorgente luminosa a LED è facilmente sostituibile tramite attacco magnetico – e ricerca stilistica – le superfici trasparenti sono arricchite di una texture bianca stampata-, nasce una lampada dal design contemporaneo.

THE MAGNETIC HANGING DEVICE SIMPLIFIES EVERYTHING

Inspired by the high fashion world, where folds, pleats and soft structural shapes reign, Veli is a sophisticated, glamorous collection featuring a series of handcrafted elements carefully connected in a sinuous, elegant design.

Ispirata al variegato mondo dell'haute couture dove con pieghe, panneggi e intagli si dà forma a morbidi volumi tridimensionali, Veli è una collezione di lampade glamour e sofisticate realizzate tramite un sistema di incastri eseguiti a mano.

FAR FROM TRADITIONAL AESTHETICS

The unique, avant-garde lamp is an asymmetrical series of fragments, seemingly disarticulated, that stray far from traditional aesthetics; the lamp was inspired by the eponymous Spanish city, where architecture and light make for a mystical atmosphere.

Asimmetrie e frammenti all'apparenza disarticolati si sintetizzano in una lampada ispirata all'omonima città spagnola, dove architetture e luci dipingono un'atmosfera mistica.

TRANSFORM SPACES INTO LANDSCAPES

The lamp draws on natural forms, resembling a cloud that captures the first changing rays of morning sun, or a treetop filtering a play of lights and shadows.

La lampada riprende le forme della natura: è una nuvola che cattura la luce del sole delle prime ore del giorno e si carica di riflessi cangianti, è la chioma di un albero attraverso la quale la luce filtra e crea giochi con le ombre.

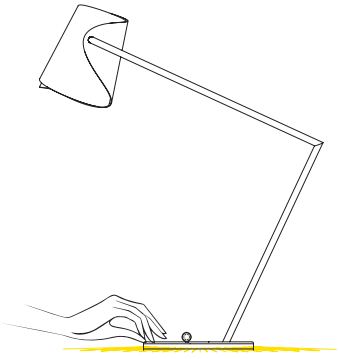
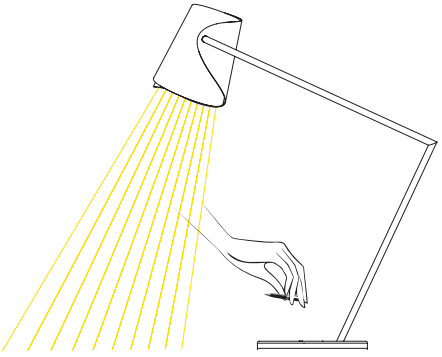
THE PERFECT WRITING LAMP

The best gift to give passionate writers is the freedom to create without having to do anything else, without interrupting their inspirational flow: lift the pen and begin. Overlay was born of this concept. The perfect writing lamp's shade is illuminated the moment one lifts the Montblanc Meisterstuck Le Grand, included with the lamp. The only thing left to do is choose is the type of pen stroke.

Il più grande regalo che si può fare agli appassionati di scrittura è lasciare che, colti dall'ispirazione, non debbano pensare ad altro che a sollevare la penna e incidere per sempre sulla carta i loro pensieri. E così nasce Overlay, la perfetta lampada da scrittura, il cui diffusore si accende semplicemente sollevando la Montblanc Meisterstuck Le Grand fornita in combinata con la lampada. Basta solo scegliere quale tratto di scrittura si preferisce.





Il pulsante a sfioramento accende la luce LED di cortesia nella base in ottone.

The sensitive touch system turns on the LED courtesy light in the brass base.

Sollevando lo strumento da scrittura dall'alloggio in pelle, si accede la luce LED nel diffusore in Copperlfex®.

Lifting the writing instrument from the leather rest turns on the main LED light in the Copperflex® shade.

THE PACKAGING PLAYS ITS PART

Overlay comes in exclusive, refined packaging. The lamp was created along with Montblanc Italia to further inspiration and create the perfect habitat for writing. The gift is already appreciated from the outside, nestled in a box exhibiting carefully designed, glamorous details.

Uno speciale packaging esclusivo e raffinato accompagna la lampada da tavolo Overlay, realizzata in collaborazione con Montblanc Italia per favorire l'ispirazione e creare il perfetto habitat per gli appassionati di scrittura. Un regalo che si fa gustare già dall'esterno, perfettamente alloggiato in un cofanetto da trasporto ricco di dettagli glamour e ricercati.

SUGGESTIVE, REALISTIC AND WELCOMING

Slamp's expressive powers and fresh figurativism meet in a flurry of reflective, luminous petals that transform and enchant any interior with their sequence of lighting fragments and shadows cast across the space.

La realtà dei piccoli cespugli arruffati di bosso incontra la magia del figurativismo creando petali che giocano con la luce trasformando in un incantesimo le sequenze di ombre e rifrazioni proiettate nello spazio.

INSPIRATION COMES LIKE A LIGHTBULB GOING OFF IN YOUR HEAD

They say inspiration comes like a lightbulb going off in your head. They also say good things come in small packages. Reinventing this universal archetype required genius folly and sartorial expertise.

Dicono che l'ispirazione si accenda all'improvviso come una lampadina sulla testa. Dicono anche che le cose migliori arrivano in pacchetti piccoli. Reinventare questi archetipi richiede una certa dose di geniale follia e di esperienza manifatturiera

A LIGHTBULB POPS ON IN YOUR HEAD

They say inspiration comes on like a lightbulb going off in your head. Idea does the same, reflecting your image in its mirror on the wall; the three-dimensional "bulb" is made of technopolymers, and the screw base, brushed brass. Also available in white-paneled version or a recessed wall lamp.

Dicono che l'ispirazione si accenda all'improvviso come una lampadina sulla testa. E la lampada Idea lo racconta attraverso uno specchio da parete su cui il ritratto di chi guarda, riflettendosi, incontra la tridimensionalità di una lampadina in tecnopolimeri con virola ottonata. Disponibile anche in versione bianca opaca o con pannello da incasso a scomparsa.

LIKE A STONE THROWN INTO WATER...

Like a stone thrown into water, the lamp's lines are soft and uniform; concentric circles that surround the central light sources radiate outwards. The tonal shades guide the lamps vibrations, instilling a calm and relaxed environment.

Come un sasso gettato nell'acqua, il decoro che la caratterizza genera linee morbide e regolari: cerchi concentrici, sempre più grandi, in corrispondenza delle fonti luminose. Le colorazioni neutre tono su tono avvolgono la lampada guidando le vibrazioni della luce.

DESIGN TAKEN STRAIGHT FROM THE PAGES

Ecstacity is Nigel Coates' three-dimensional version of the architecture described in his book of the same name. Just as his edition made space for an ideal, non-linear imaginary city, the design plays on a series of superimposed graphic printing.

Ecstacity è la realizzazione tridimensionale del concept sull'architettura racchiuso all'interno dell'omonimo libro di Nigel Coates. Esattamente come nel volume si dà spazio all'immaginario di una città ideale incoraggiando una lettura non lineare, allo stesso modo in questa lampada si gioca con una serie di stampe serigrafiche sovrapposte.

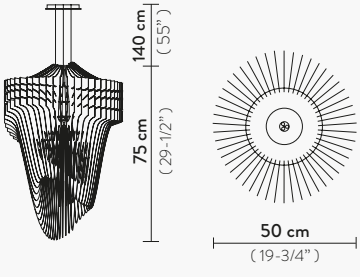
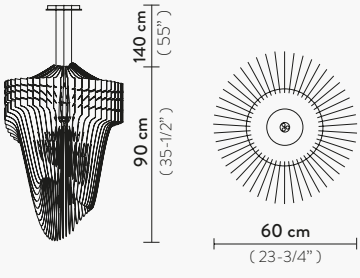
ARIA SUSPENSION S

LED: 35W - 220V - 3.500 Lumen
2700 Kelvin (warm white) CRI 90
Triac Dimmable (Trailing Edge min. 20W)
MADE OF: Cristalflex® Gold Plated
Cristalflex® Transparent



ARIA SUSPENSION M

LED: 35W - 220V - 3.500 Lumen
2700 Kelvin (warm white) CRI 90
Triac Dimmable (Trailing Edge min. 20W)
MADE OF: Cristalflex® Gold Plated
Cristalflex® Transparent



ARIA SUSPENSION L

LED: 70W - 220V - 7.000 Lumen
2700 Kelvin (warm white) CRI 90
Triac Dimmable (Trailing Edge min. 20W)
MADE OF: Cristalflex® Gold Plated
Cristalflex® Transparent

GREEN SENSITIVITY

All of our products are made using reusable or recyclable materials. Cold industrial processing ensures that no harmful substances are emitted during manufacturing, including the materials submitted to maximum thermal treatment. Water vapor is released during only 20% of production. Our products are shock-resistant and can be hand-washed, ensuring not only quality but longevity. Slamp's use of raw materials, from its technopolymers to cardboard packaging, is in accordance with the International Standards for Environmental Protection.

I materiali utilizzati nella produzione delle nostre lampade sono riciclabili e riutilizzabili. Il processo di lavorazione industriale, a freddo, permette di non sprigionare sostanze nocive ma solo nel 20% dei casi vapore acqueo. Inoltre i materiali sottoposti ai massimi stress termici non emettono tossine. Il prodotto permette di essere lavato ed è resistente agli urti, garantendo una eccellente longevità. Tutte le materie prime utilizzate da Slamp (dai tecnopolimeri al cartone da imballo) sono utilizzate rispettando le normative internazionali di salvaguardia dell'ambiente.

SLAMP'S COMPANY CULTURE IS BASED ON SUSTAINABILITY.
